The update improves stability and reliability on specific system. The update also includes Quick Look support for custom cleaners under Mac OS X 10.5.

IMMEDIATE RELEASE

Vancouver, Washington - November 7, 2007 - unmarked software today announced the release and immediate availability of TextSoap 5.7.1, an update to its award winning text processing utility for Mac OS X.

The TextSoap 5.7.1 update is a maintenance release that fixes reported issues and improves the stability and reliability on specific systems, including problems related to the contextual menus access. The update also includes QuickLook support for custom cleaners under Mac OS X 10.5 (Leopard).

The TextSoap 5.7.1 update is available free of charge to all registered TextSoap 5 customers.

TextSoap Deluxe : Take control of your text

Take total control of text and its style. Whether it is Mail, AppleWorks, BBEdit, Entourage, Coda, or TextEdit, TextSoap provides integration options such as Services Menu support, Contextual Menu and Application plug-ins. With a single menu selection TextSoap Deluxe brings unique processing power to users from within their favorite application.

Pricing and Availability:

TextSoap 5.7.1 is available now directly from unmarked Software. Pricing for new customers starts at \$29.95 USD for the Standard Edition, \$39.95 USD for the Deluxe Edition. Upgrades from TextSoap 4 start at \$19.95 USD. This is a free update for all existing TextSoap 5.x customers.
