Orlando, Florida - The popular iPhone treasure hunting game Traveler's Quest is now featured in the "What's Hot" section of the iTunes App Store Games category. The 2009 BestAppEver Award Double Nominee, Traveler's Quest is taking the world by storm!

Written for the iPhone and using the built in GPS and location services, Traveler's Quest gets you off the couch and into the real world to hunt for and bury virtual treasures. If you can get there, you can hunt or bury a treasure there! Getting out of the house has never been so much fun! Bury your treasures for daily gold payments, but watch out, other players can come along to dig up your treasures too! Some treasures are available only in specific areas of the world, with others only during specific times of the year, like the recently completed Christmas 2009 Collection. New treasures are being added all the time too!

With the newly added Facebook Connect feature, players can now brag to their friends about their found treasures and completed collections. In game leaderboards show you how you rank compared to other players in the game in points, gold, collections and treasures. Everything you need to know, right in your hand!

Kitty Code has embraced social media with their Traveler's Quest Facebook Fan Page and Twitter presence. Because of this, the Traveler's Quest game community is gaining momentum, adding new fans and followers every day.
