

## **TTSMessenger - A New Text To Speech App for TwentyTen**

Published on 01/23/10

GuzzMobile has released TTSMessenger 1.0, its Text to Speech app for iPhone and iPod touch devices. Now you have an App on iPhone that can speak what you type in, in a variety of accents, and either in male or female voices. It also allows you to send the TTS to an email address or a phone number by email. The concept of anonymous speech is now closer than ever, now if you have something to say, just type it in and let the App say it for you as TTS.

Boston, Massachusetts - GuzzMobile is proud to announce TTSMessenger 1.0 for iPhone and iPod touch devices. TTSMessenger is a Text to Speech App(TTS) makes its debut on iPhone with mixed reviews and it is now available for purchase on iTunes. Now you have an App on iPhone that can speak what you type in in a variety of accents including French, Dutch, Spanish, Afrikaans, German, Italian, various British accents, etc and either in male or female voices. It also allows you to send the Text to Speech (TTS) to an email address or a phone number as sms by email. In addition, keeps a record of Text To Speech (TTS) messages sent.

Now, the concepts of anonymous speech, automated speech by wire, is closer than ever. Now if you have something to say, just type it in and let the App say it for you as Text To Speech (TTS) in any accent or voice you may choose. This version of the app is experimental and no doubt will be refined in subsequent releases, and it is also quite affordable when compared to other TTS technologies available on the iPhone e.g voice prompts for turn by turn GPS direction. TTSMessenger is listed under the utilities section of itunes App store, take a twirl, it might just surprise you.

Device Requirements:  
iPhone and iPod touch 3.1.2 or later

Pricing and Availability:  
TTSMessenger 1.0 is only \$9.99 (USD) and available worldwide exclusively through the App Store in the Utilities category.
