

AI Vote 1.0 for iPhone - Just in Time for New American Idol Season

Published on 02/03/10

Tropic Apps today released AI Vote 1.0 for iPhone users, just in time for the ninth season of American Idol. Diehard American Idol fans are going to be thrilled about the launch of AI Vote. It contains all the current voting phone numbers, a live feed of percentage votes, photos, time zone adjustment, one-tap voting and even voting countdown clocks. For AI fans, this is the must have app of the year. Simple tap to vote screen with photos and names of all contestants.

Vero Beach, Florida - Announcing that Tropic Apps, the developers of AI Vote 1.0, have launched a unique app just in time for the ninth season of American Idol. AI Vote contains all the current voting phone numbers, a live feed of percentage votes, photos, time zone adjustment, one-tap voting and even voting countdown clocks. For AI fans, this is the must have app of the year.

Diehard American Idol fans are going to be thrilled about the launch of AI Vote. Typically, they spend most of their time jotting down the voting phone numbers for each contestant and aren't able to enjoy the show as much as they'd like to. This app changes everything for fans by supplying all the necessary information and giving them a quick and super easy voting venue.

The app contains all of the contestant names and photos, along with real time stats that let users see who's winning the weekly contest. App user voting is very simple, requiring only a tap to the photo of the person the user wants to vote for. There is a countdown clock to alert when the polls open and close, providing lots of opportunity to vote as many times as users like within that timeframe.

AI Vote features include:

- * Simple tap to vote screen with photos and names of all contestants
- * Display with percentage of votes each contestant is receiving while the voting is in progress
- * Countdown clock to notify you when voting is open
- * Countdown clock that keeps track of when voting will be closed
- * Time zone adjustment which allows you to participate in voting if you are traveling
- * Photos of contestants that have been previously eliminated

Users never have to miss out on voting, just because they're away from home. They need only make a time zone adjustment and they'll know when to hit the polls. AI Vote is perfect for devoted American Idol fans and the timing is good. With Season 9 just around the corner, this app is going to help them enjoy the show more than they ever have in the past. So You Think You Can Dance fans don't have to miss out on their favorite show, either. The Tropic App people have also developed SYTYCD Vote, which can found on their website and in iTunes.
