

Speedtest 1.0 - Push the Limits of Your Memory and Skill

Published on 02/02/10

Vision Thing has released Speedtest 1.0, its first game for iPhone and iPod touch devices. Speedtest - by Vision Thing is carefully designed to resemble antique slot machines. It recreates all the essential characteristics of the original game, from the flashing lights to the fun gaming experience. Each point you earn increases the speed of the game and eventually the speed will become too fast. Speedtest is at its best when played together with friends.

Oulu, Finland - New game development collective from the Northern Finland, Vision Thing, has released its first game for iPhone and iPod touch platforms. Based on the renowned slot machine, Speedtest recreates all the essential characteristics of the original game: from the flashing lights to the fun gaming experience.

Speedtest - by Vision Thing is carefully designed to resemble antique slot machines that you can find only in museums nowadays. You can start the game by clicking on the play button - after which you must concentrate all your skills and reflexes into defeating the highest score. Each point you earn increases the speed of the game - and eventually the speed will become too fast. A word of advice: Speedtest is at its best when played together with friends.

Feature Highlights:

- * Vintage graphics with lots of lights
- * Screens for player's score and for the highest score
- * The highest score is automatically saved

Device Requirements:

- * iPhone and iPod touch running OS 3.1.2 or later

Pricing and Availability:

Speedtest 1.0 is only \$0.99 (USD) and available worldwide exclusively through the App Store in the Games category. For more information about Vision Thing and its games, please visit the site of the collective.
