

Mobile DJ Apps Launches New iPhone Apps for DJs

Published on 02/03/10

Mobile DJ Apps, LLC today announce Mobile DJ Sampler Pro and Mobile DJ Sampler Free, its new mobile DJ apps for iPhone and iPod Touch. These exciting apps contain pre-loaded sound samples that you can use to make any DJ event sizzle. Carry your own music sampler on your iPhone to all your DJ gigs. Just plug it into your sound system or download the samples straight to your computer and you're ready to transition from one song to the next with swooshes jets, sirens, and tons of other cool sounds.

Los Angeles, CA - Mobile DJ Apps, LLC today announced that its new mobile DJ applications, Mobile DJ Sampler Pro (TM) and Mobile DJ Sampler Free (TM), for the iPhone and iPod Touch, are now available on Apple's App Store. These exciting apps contain pre-loaded sound samples that you can use to make any DJ event sizzle. It's never been easier to enhance the quality of your DJ events.

Mobile DJ Apps founder Rob Nadigel, commented "We're very excited to introduce Mobile DJ Sampler PRO and Mobile DJ Sampler FREE to professional and aspiring DJs. Mobile DJ Sampler allows you to enhance any event by having cool sound samples at your fingertips on your iPhone. Our free version allows you to experience a few of the samples to get a feel for this amazing app!"

iPhone and iPod Touch users now have a simple yet powerful tool at their disposal to help them deliver cool music sounds for any type of crowd including dances, weddings, parties, etc. Professional DJ artist DJ Emotion stated that "Mobile DJ Sampler PRO is not just another iPhone app. This app helps me in my business to deliver a better quality of service to my customers. This app really adds a lot to my performances and does it for such a low price!"

Mobile DJ Sampler PRO features include:

- * Over 50 stored sound samples to choose from
- * Upload hundreds of your own sound samples
- * Upload your own background picture (JPEG image)
- * 6 presets allow easy access to your favorite sounds
- * Easy touch mode allows you play a sound once when selected from the keypad
- * Hold the button down for continuous loop mode to repeat the sound and rev up your audience
- * High-quality 32 bit stereo sound
- * 3-5 second samples allow smooth transition into your next song
- * Instant sample playback means no delay

Pricing and Availability:

Mobile DJ Sampler Pro is available for download worldwide for the iPhone and iPod Touch at the App Store for \$1.99. Mobile DJ Sampler Free is available at no cost. For more information about Mobile DJ Sampler, please visit them online.
