London, UK - Announcing that Hypno Therapy Direct, the developer of Total Confidence & Success, is excited to release another new application. The app is a new tool for helping people transform their lives and realize their greatest potential. Through a combination of audio and video aids from a renowned hypnotherapist, Total Confidence & Success relaxes, heals self-esteem, instills confidence and improves focus.

Total Confidence & Success is just one of the helpful applications launched by Hypno Therapy Direct. The company has been building a reputation for quality and effectiveness since Darren Marks began the business. Now, Marks is one of the UK's most sought after hypnotherapists, famous for his powerful relaxation audios. He has even made a presentation on his techniques to Prince Charles.

It isn't about the fame and notoriety for Marks. His development of Total Confidence & Success stems from a sincere desire to make a difference, "I love my work and get immense satisfaction from helping people to transform their lives. However there are only so many people I can physically see in a day."

In order to expand the number of clients he could help, Marks came up with the perfect solution. An iPhone application would accommodate remote access, while bringing his services into an affordable price range for everyone. "I wanted to create an app which was as close to having a living hypnotherapist on tap as possible and at a price everyone could afford," explained Marks.

Total Confidence & Success is a program utilized by a variety of consumers, including musicians, journalists and directors. The program works for anyone looking to improve daily life and realize their full potential.

The app contains a series of audio and video sessions. Users discover how to let go of fear and anxiety as they learn to embrace a new level of self-confidence and mental clarity. The sessions compliment each other but can also be used individually for effective results. The application provides explanations for each session and includes video FAQs, to clarify the experience and help users get to know their hypnotherapist, Marks, a bit better.
