"There are several Craps applications for the iPhone but this is the best I have found to date." Bill Burton - About

"Aw Craps! is an extremely well executed craps game that gives you everything needed to become an expert. The graphics are nice, the interface is simple, and the dice rolling is a thing of beauty. It does sadden me though that the drink lady only comes around in the real life version ... maybe thats something that they will fix on the next iPhone." Chris Hall - 148apps
