

Mac Developer Network releases new business podcast for Mac Developers

Published on 11/29/07

The Mac Developer Network (MDN) has released a new podcast called "Mac Software Business (MacSB)" The MacSB podcast focuses on the business issues of developing Mac software. The show takes an interview format where the host interviews Mac Developers with solid experience of running a Mac Software Business. The show is hosted by Steve Scott (Scotty) who also hosts the critically acclaimed Late Night Cocoa podcast as well as MDNs new Mac Developer Roundtable Podcast.

Tetbury, United Kingdom - November 29, 2007 - The Mac Developer Network (MDN) has released a new podcast called "Mac Software Business (MacSB)" The MacSB podcast focuses on the business issues of developing Mac software.

The show takes an interview format where the host interviews Mac Developers with solid experience of running a Mac Software Business. The show is hosted by Steve Scott (Scotty) who also hosts the critically acclaimed Late Night Cocoa podcast as well as MDNs new Mac Developer Roundtable Podcast.

The Mac Developer Network is delighted to be hosting yet another podcast for the Mac Developer and hopes the MacSB podcast helps it take another step towards becoming a Mac developers first port of call for all things to do with Mac Development.
