

Default Folder X 4.3.6 Polishes Features and Compatibility

Published on 03/05/10

St. Clair Software is happy to announce the release of Default Folder X 4.3.6. Default Folder X enhances the file dialogs in all Mac OS X applications. It provides fast navigation to your files, convenient previews, integrated Spotlight tagging, and more. Version 4.3.6 addresses issues with Mac OS 10.6 Snow Leopard, Mac OS 10.4 Tiger, Google Chrome and PhotoMechanic, as well as providing smoother and more consistent operation overall.

Blacksburg, VA - St. Clair Software is happy to announce the release of Default Folder X 4.3.6. This release addresses compatibility issues and fine-tunes a number of the features in our award-winning utility for enhancing Open and Save dialogs. Honored with Macworld Magazine's Editors' Choice Award for Best System Enhancement Utility, Default Folder X makes Open and Save dialogs "work the way they should."

Default Folder X's custom keyboard shortcuts put your favorite and recent folders at your fingertips. Pop-up menus let you navigate your folders and open Finder windows. Previews, Spotlight comments and tags are there when you need them. Open, save, and get back to work: Default Folder X is workflow for the rest of us.

What's New:

Default Folder X 4.3.6 is a free update that incorporates a revised method of tracking your recently used folders, making it work better in Mac OS 10.6 Snow Leopard. It also enables its file dialog enhancements in Google Chrome and PhotoMechanic, provides sorting of folders in its settings, improves the performance of its "Get Info" feature, and offers numerous bug fixes. The new version of Default Folder X also incorporates the Sparkle update framework to automatically download and install subsequent updates.

System Requirements:

* Mac OS X 10.4, 10.5 or 10.6 (Snow Leopard)

Pricing and Availability:

Default Folder X 4.3.6 is a free update for existing version 4 users. It is \$14.95 (USD) for users who bought licenses before June 1, 2007, and costs \$34.95 for new users. Please see the St. Clair Software web site for screencasts, screenshots, a full change log, and additional feature information.
