

GizMac Accessories Announces Titan Clear iPhone Case with Holster

Published on 12/04/07

GizMac Accessories, designer and manufacturer of innovative products for the iPod and iPhone, announce their upcoming Titan Clear iPhone case with holster. Building on the success of the Titan product line, GizMac has once again designed a creative solution that should exceed customer expectations. GizMac's Titan Clear for iPhone is a protective case that can be used alone or combined with the included quick release holster.

Torrance, CA - December 4, 2007 - GizMac Accessories, designer and manufacturer of innovative products for the iPod and iPhone, announce their upcoming Titan Clear iPhone case with holster.

Building on the success of the Titan product line, GizMac has once again designed a creative solution that should exceed customer expectations. GizMac's Titan Clear for iPhone is a protective case that can be used alone or combined with the included quick release holster.

"We wanted the Titan Clear for iPhone to have the best form, function and value" explained Mark Kirtner, Creative Director for GizMac Accessories, "So we delayed our release until the Titan Clear had the best over all look, usability and price for our customers."

Well planned engineering from GizMac has produced an iPhone case that will protect as well as impress. The Titan Clear case protects the iPhone with its tough, crystal clear polycarbonate shell, but still allows the Apple iPhone's striking appearance to show through. The addition of a thin film screen protector completes the Titan Clear case protection by keeping the iPhone screen safe.

Retractable horizontal and vertical kickstands are built into the Titan Clear iPhone case. These innovative kickstands can be used to adjust the horizontal and vertical angles of the case for optimum iPhone viewing. Movies, videos, calls, messages and more can be better viewed when the angle of the screen is adjusted for personal preference.

The rotating belt clip holster for the Titan Clear iPhone case is versatile and has great style. Not only does the Titan Clear iPhone holster securely hold the case face out, but also face inward for added protection of the iPhone screen. The Titan iPhone holster is made of lightly frosted clear polycarbonate for a sleek look that compliments the Titan case.

The Titan Clear for iPhone will retail for \$34.99 U.S. and will be available in early December. Additional details can be obtained on the GizMac Accessories website.
