

## **Coherent Graphics updates PDF Command Line Tools / PDF Toolkit for .NET**

Published on 03/11/10

UK based Coherent Graphics Ltd has released the latest versions of two enterprise-level PDF solutions: Coherent PDF Command Line Tools 1.5, and Coherent PDF Toolkit for .NET 1.5.

Perfect for the busy desktop publisher, prepress operator, the tools allow anyone to merge and split files, rotate flip and scale individual pages, or all pages, crop pages and modify the document information. Easily manage PDF bookmarks, add or remove PDF attachments, and add text and dates to one or more pages.

Cambridge, United Kingdom, Coherent Graphics Ltd is pleased to introduce the latest versions of two enterprise-level PDF solutions: Coherent PDF Command Line Tools 1.5, and Coherent PDF Toolkit for .NET 1.5. Perfect for the busy desktop publisher, prepress operator, the tools allow anyone to merge and split files, rotate flip and scale individual pages, or all pages, crop pages and modify the document information. Easily manage PDF bookmarks, add or remove PDF attachments, and add text and dates to one or more pages. Additionally, users can edit encrypted files, as well as decrypt and encrypt PDF documents.

### **New Feature Highlights**

- \* Many robustness improvements, deals with more malformed files
- \* Speed improvements on large, complex files
- \* Add text relative to cropbox, add diagonal text
- \* Better support for non-ASCII character sets
- \* Copy boxes (e.g media box, crop box)
- \* Multiline text
- \* Detect low resolution images
- \* Copy fonts from document-to-document, remove fonts
- \* Detect missing embedded fonts

### **Minimum Requirements:**

- \* Mac OS X, Windows, Linux, Solaris, HP-UX

### **Pricing and Availability:**

Coherent PDF Command Line Tools 1.5 is available immediately for \$290 (USD) for a single license. Coherent PDF Toolkit for .NET 1.5 is available for \$745 (USD). Both is available as a full-featured demo. This free trial is fully functional but places the word "DEMO" over any file it writes. Full evaluation licenses are available for media outlets.
