

App Cubby releases KaleidoVid - A fun little diversion for your iPhone

Published on 03/16/10

Texas based App Cubby today announces KaleidoVid 1.0, their new app for iPhone 3G, 3GS devices. KaleidoVid is a video kaleidoscope for iPhone that creates beautiful kaleidoscopic images from every day objects using the iPhone's built in camera. Point the camera at everyday objects to create beautiful kaleidoscopic images. Tap the screen to freeze the image. Save or share it on Twitter, Facebook, or via email, then tap to do it again.

San Marcos, Texas - App Cubby today is pleased to announce the release of KaleidoVid 1.0, their new app for iPhone 3G, 3GS devices. KaleidoVid is a video kaleidoscope for iPhone that creates beautiful kaleidoscopic images from every day objects using the iPhone's built in camera. Point the camera at everyday objects to create beautiful kaleidoscopic images. Tap the screen to freeze the image. Save or share it on Twitter, Facebook, or via email, then tap to do it again.

Crazy as it may sound, iPhone development can be intense at times. So, we decided to take a break from a few of our more ambitious projects and do something delightful. We hope you find KaleidoVid as fun to use as it was to develop! KaleidoVid was created by David Barnard of App Cubby, brought to life by Layton Duncan of Polar Bear Farm, and made beautiful by Dave Keller of rocket.

Feature Highlights:

- * Tap to freeze screen for preview
- * Save to iPhone Photos album
- * Share via Twitter
- * Share via Facebook
- * Share via Email

Device Requirements:

- * KaleidoVid requires a built-in camera and therefore does not support the iPod touch or iPad
- * iPhone, iPhone 3G, or iPhone 3GS
- * Requires iPhone OS 3.1 or later
- * 0.9 MB

Pricing and Availability:

KaleidoVid 1.0 is currently available at the price of \$0.99 (USD) and available worldwide exclusively through the App Store in the Photography category.
