

Speed Download 5.2.14 Super-Charged for 10.6.3 and Safari 4.0.5

Published on 03/25/10

Yazsoft today announced Speed Download 5.2.14, an important update to their popular download manager for Mac OS X. Speed Download 5 redefines the Mac OS X download manager by combining four amazing products: a turbo-charged download manager, a fully featured secure FTP client, a file sharing utility with full encryption, and complete .Mac/iDisk/WEBDAV connectivity, into one small and easy to use application. Version 5.2.14 offers optimized performance, better compatibility and more.

Chicago, Illinois - Yazsoft today is pleased to announce the release of Speed Download 5.2.14. Developed exclusively for Mac OS X, Speed Download is an easy to use, powerful and reliable download manager. Speed Download sets a higher standard for download manager innovation, and is expressly designed to be a central, unified hub for almost all downloading and file transfer activities. This major new update continues to enhance and tweak the performance of Speed Download to ensure utmost reliability.
