

New Enfocus PDF Super Workflow Suite Offers Savings

Published on 03/26/10

XChange UK, the source for extended technology worldwide, are pleased to announce the Enfocus PDF Super Workflow Suite. The suite of high-powered tools eliminate any ambiguity from PDF workflows by offering everything users need to set up and communicate their PDF quality specifications as well as automatically retrieve, check and correct incoming PDF files. Printers and publishers can deploy a fully automated PDF workflow, increasing productivity and the quality of print production.

London, United Kingdom - XChange UK, the source for extended technology worldwide, are pleased to announce the Enfocus PDF Super Workflow Suite. The suite of high-powered tools eliminate any ambiguity from PDF workflows by offering everything users need to set up and communicate their PDF quality specifications as well as automatically retrieve, check and correct incoming PDF files. Using the Enfocus PDF Super Workflow Suite, printers and publishers can deploy a fully automated PDF workflow, increasing productivity and the quality of print production.

"Users can save time by implementing the PDF Super Workflow Suite and streamline literally thousands of processes associated with day-to-day publishing tasks. Whether their organisation produces magazines, catalogues, books, manuals or high volumes of files, the PDF Super Workflow Suite is an essential collection of applications that will make their life easier," states William Buckingham, Managing Director. "This special bundle offers u
purchased separately. Compared to the standard Enfocus PDF Workflow Suite, users save a

Enfocus have super-charged their PDF Workflow Suite by adding FullSwitch for total automation of files and key third-party layout, publishing, prepress and print application processes. The PDF Super Workflow Suite by Enfocus is a complete solution for publishing from start to finish and provides an incredible value to users with a comprehensive feature set from five industry-standard solutions for for preflighting, automation of sorting and receiving files and applications, PDF creation, advanced editing and imposition.

Tools included in the suite include:

PitStop Pro - This is the essential Adobe Acrobat plug-in to check and fix PDF files in professional publishing environments. An extensive array of editing tools makes it easy to do last-minute corrections, both for individual objects and globally throughout the complete PDF document. The tools in PitStop Pro are completely production oriented and allow you to tackle those problems you actually experience in your workflows.

PitStop Server - Offers automation that checks and corrects incoming PDF files. Certified PDFs created with Instant PDF are immediately identified and move faster through production. Non-Certified PDF files are preflighted and automatically corrected if needed, moving through the production workflow with little or no direct interaction.

FullSwitch - Lets users easily integrate their PDF workflow with popular third party applications and is ideally placed to help users reclaim their time to be creative and help their customers. It is a robust automation product that is easy to install and use. FullSwitch offers automated file reception through FTP and email, sorting of files based on file type and naming conventions and automatic email notifications to customers and internal staff. In addition, FullSwitch includes configurators that allow third-party applications such as Adobe Acrobat Distiller or Enfocus PitStop Server to be integrated easily in a flow.

Instant PDF - Lets user define their PDF specifications easily and intuitively. Users can create Enfocus PDF Queues containing all settings required for quality PDF creation. From QuarkXPress(TM) and Adobe InDesign(TM) print styles and PDF export settings to the final delivery requirement, the PDF Queue packages the technical complexity of PDF creation into a single file.

CertifiedPDF - Allows users to publish PDF Queues and communicate their PDF quality specifications to their customers. Using Instant PDF, their customers will install the published PDF Queue and create perfect Certified PDFs that comply with their quality standard.
