Toronto (ON), Canada - Zevrix Solutions offers File Courier, its automatic digital delivery system, at 50% off on maczot on March 30. File Courier delivers files and folders to FTP and local destinations and sends automatic e-mail delivery notifications. The software also creates lo-res PDF files, compresses and password-protects deliveries. File Courier is a cost-effective and timesaving replacement for online file transfer services, which often offer an awkward, expensive and counter-productive way of sending files.

Many web based file delivery solutions charge a monthly fee to use their services and require users to constantly log in and fill out various forms upon each delivery. With File Courier, users only pay once for a desktop application which handles all file deliveries automatically without the need for user interaction.

File Courier provides the following professional digital delivery capabilities:

- * Send files and folders to FTP sites
- * Send files to on your local network volumes
- * Automatic e-mail notifications based on powerful variable templates
- * Deliver files by e-mail
- * Create low-res PDF automatically and attach to e-mail
- * Attach files from specific subfolder to e-mail
- * Automatic compression
- * Encrypt disk images with passwords
- * Detailed history of all deliveries

Zevrix also produces solutions for Adobe Creative Suite and Microsoft Office automation, PDF processing and graphic file checkup.
