

Software Beyond Limits' Chain Link HD Launches with the iPad

Published on 04/04/10

California based Software Beyond Limits has announced Chain Link HD 1.0, their latest addictive game for iPad devices. With no complex controls to learn, Chain Link HD only requires one finger to play. Touch and drag an assortment of shapes across the screen to chain them with other similar shapes and send them into the pulsating vortex to score. With three unique game modes, Chain Link HD offers three different gaming experiences and more.

San Jose, California - Software Beyond Limits, an established independent iPhone game development studio behind the hit game Shape Sifter and Chain Link Pro, today announced that their latest addictive game, Chain Link HD 1.0, will be a exclusive launch title for the iPad on April 3rd. It will be available in the iTunes App Store for an amazing price of \$.99 (USD).

With no complex controls to learn or buttons to press, Chain Link HD only requires one finger to play. Touch and drag an assortment of shapes across the screen to chain them with other similar shapes and send them into the pulsating vortex to score. The longer the chain the more points awarded but long chains risk colliding with foreign shapes, destroying the chain and potentially ending the game.

Luckily there are 12 power-ups your chain can collect on contact to ensure survivability and maximize points, ranging from miniature chains to multi-colored chains to metamorphosis to chain invincibility. Completing in-game missions are rewarded with bonus points and earn your way towards unlocking the most powerful power-ups. With three unique game modes, Chain Link HD offers three different gaming experiences with hours of enjoyment for one low price!

Chain Link HD includes an incredibly rich online experience for your competitive nature that is above and beyond what most mobile games offer today. Taking full advantage of the OpenFeint online network, you can send challenges to your friends to beat your high score. Challenges can use push notifications to appear on your friend's device instantly and winning results can be sent to facebook and twitter to gloat to your friends. Another great feature while playing are instant notices when your current score beats a worldwide top score which can also be sent to facebook and twitter with one click. Chain Link HD also includes over 40 online Leader Boards and over 30 online achievements. Check out these other amazing features:

- * Redesigned to take full advantage of the iPad. High-definition graphics and multi-touch support to control incredibly long chains within the large screen space offered by the iPad.
- * Timed game mode - Race against the clock to earn enough points to add additional play time. Collisions subtract points but don't end the game. Includes a bonus level where you only have 200 seconds to score as high as possible.
- * Arcade game mode - Shapes fly across the screen and any collision will end the game. Offers leisurely play with no time limits.
- * Static game mode - Shapes are created on a static grid and don't move. Clear the screen by chaining around the maze of other colorful shapes without getting too close. This mode gives the player three lives so one mistake won't end the game.
- * Chain Link HD offers easy, medium and hard degrees of difficulty. A special hardcore

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

mode is offered for players who have mastered the art of chaining.

* Earn the Speedster, Repeater or Traveler score multipliers to push your score over the top by triggering special chaining conditions that you'll discover as you play.

* A rich 3D sound experience when using headphones.

* High production value with beautiful graphics, advanced particle effects and fluid chain movement.

* Designed exclusively to take advantage of touch screen devices so controlling the game feels natural.

* Listen to your own music from your media library as you play.

* Save and restore your game at any time.

Device Requirements:

* Compatible with iPad

* Requires iPad OS 3.2 or later

* 11.9 MB

Pricing and Availability:
