

Easy UP/down Timers w/Tilt and Shake Control updated for the iPhone

Published on 04/07/10

California based Energize Software today released Easy UP/down Timers w/Tilt and Shake Control V1.6, an update to the multiple timer program for iPhone and iPod touch devices. With 25 timers that count up or down, this app provides unique features such as tilt and shake control, timer linking, timer synchronization, customized pictures, and the ability to record your own alarm sound. Featuring easy numeric keypad entry, users can choose from six background themes and much more.

Thousand Oaks, California - So you don't have enough timers for your various tasks? Geared for busy iPhone and iPod touch users who need to keep track of time with various tasks - ranging from exercise routines to projects for clients - the "Easy UP/down Timers w/Tilt and Shake Control" program provides 25 counters and timers with both a scrolling view of multiple timers and a single view of any one timer.

Developed by Energize Software for the iPhone or iPod touch, it comes complete with tilt and shake control, timer linking (start one timer when another one reaches zero), timer synchronization (start and stop timers in a group), customized pictures, and the ability to record your own alarm sounds.

Feature highlights include:

- * 25 simultaneous timers that count up or down with status indicators (up, down, active, alert)
- * Unique tilt and shake control of your device to start/stop/reset and increment/decrement time
- * Link one timer to another to trigger timers to start upon completion of the first timer
- * Synchronize a group of timers to start or stop together.
- * View a scrolling list of all the timers or choose single timer view
- * Audible or silent alarms with visual alerts or vibration
- * Record your own alarm sound using your device's microphone (if available)
- * Email the current value and status of every timer
- * Each timer can have a customized title and custom picture
- * Choose from six background themes
- * Easy numeric keypad entry
- * Fine tune tilt and shake sensitivity, alarm volume, and many more options

You can:

- * Keep track of individual food items cooking in the kitchen
- * Track an exercise or gym routine
- * Time a business presentation or speech
- * Log time spent working on a projects for clients
- * Provide alerts for taking prescription medicine
- * Use the app as an aviation timer and sporting event race timer
- * Save time and organize your day by reusing the same timer for frequent tasks
- * Operate the timer without looking at it by using the unique tilt and shake control

Device Requirements:

- * Compatible with iPhone, iPod touch, and iPad
- * Requires iPhone OS 3.0 or later
- * 3.8 MB
