

## Brain App XL - Top rated iPhone Brain Trainer supersized for iPad

Published on 04/28/10

UK based independent iPhone developer Chris Mayer has announced the release of Brain App XL 1.0 for iPad. Using tried and tested techniques, Brain App presents rapid-fire math problems in quick succession to exercise the brain. Brain App XL for iPad features the same fun brain exercises featured in the the iPhone version, but optimized for the bigger screen with high resolution graphics and ultra fluid animation.

Chichester, UK - Independent iPhone developer Chris Mayer has announced the release of Brain App XL 1.0 for iPad. Using tried and tested techniques, Brain App presents rapid-fire math problems in quick succession to exercise the brain. Brain App XL for iPad features the same fun brain exercises featured in the the iPhone version, but of course they are now optimized for the bigger screen with high resolution graphics and ultra fluid animation.

All of the features from the iPhone version have been carried across and updated, the new menu system shows top scores for each mode with a handy on-screen score pad. Worldwide Rankings allows users to compete with other Brain App XL users - and thousands of iPhone / iPod touch users too.

### \* Speed Math (30sec and 60sec Modes)

Solve as many equations as possible with the time limit. Points are awarded for solving each equation, and deducted for a wrong answer. You can choose to play for either 30 or 60 seconds at a time. Easy / Advanced / Genius Modes.

### \* Balloon Burst

Burst the numbered balloons from lowest to highest. There are two difficulty settings, in Easy Mode a point is awarded for each set of balloons you burst in the correct order. In Advanced Mode points are deducted when you make a mistake. Beautiful photo backdrops enhance the iPad version.

### \* Card Count

Multiple playing cards are thrown onto the screen. Quickly total the value of the cards. It's not as easy as it sounds though - most are numbered, but Jacks, Queens and Kings will get you thinking fast to total their values.

### \* Online World Rankings and BrainApp IQ

Introducing BrainApp IQ - a global score based on your results in all Brain Exercises. Take your BrainApp IQ online and compare with the world in World Rankings mode.

### \* In-app User Manual

Accessible from the main menu, the user manual is on hand if you ever need help. Plus a feedback system allows you to suggest new features and game modes for future Brain App versions.

### Device Requirements:

- \* Compatible with iPad
- \* Requires iPhone OS 3.2 or later
- \* 3.7 MB

### Pricing and Availability:

Brain App XL 1.0 is \$2.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Games category. Brain App for iPhone was released in February and has since received very positive reviews, Brain App XL looks
