Published on 01/01/08

Limit Point Software announces MenuMinder 1.3 Create quick, simple alert, email and SMS Text Message (mobile phone) reminders using the system-wide menu that can be accessed from any application. Never forget anything ever again. This new version eliminates the requirement that an email account be setup in Apple Mail. Using the new preference pane "Mail Server" users can specify any mail server for delivering email reminders.

IMMEDIATE RELEASE

Limit Point Software announces MenuMinder 1.3 Create quick, simple alert, email and SMS Text Message (mobile phone) reminders using the system-wide menu that can be accessed from any application. Never forget anything ever again.

This new version eliminates the requirement that an email account be setup in Apple Mail. Using the new preference pane "Mail Server" you can specify any mail server for delivering email reminders. (Your Apple Mail account is used by default.)

- * Select "New Reminder" to create a reminder with an absolute date.
- * Select "Quick Reminder" to create a reminder 1 minute, 10 minutes, 1 hour, 1 day, etc in the future.
- * Select a reminder from the reminder queue to delete or edit the reminder.
- * To send email/text message reminders, enter an email address or mobile phone number in the preferences panel.
- * Select "Print" to print your reminders.

Pricing and Availability:
