

Tropical Software Releases TopXNotes touch for iPhone and iPod touch

Published on 06/25/10

Tropical Software today announces that TopXNotes touch 1.0, their award-winning personal note manager for Mac has come to Apple touch devices including iPhone, iPod touch and iPad. TopXNotes touch features basic note creation and editing in landscape and portrait modes, emailing a note from TopXNotes touch, backup/restore to the device, clickable hot links, and note synchronization with TopXNotes for Mac.

Atlantic Beach, FL - Tropical Software today announces TopXNotes touch for iPhone and iPod touch is now available in the Apple iTunes store. This is the first of a series of companion products we plan to release for Apple touch devices. TopXNotes touch features basic note creation and editing in landscape and portrait modes, emailing a note from TopXNotes touch, backup/restore to the device, clickable hot links, and note synchronization (NoteSync) with TopXNotes for Mac. Now you can have your notes "on the go", create new notes, edit notes, delete some and keep them in sync with your Mac's notes.

The release of TopXNotes touch for iPhone and iPod touch compliments the release of TopXNotes 1.6, the latest update to its award-winning personal note manager for Macintosh. TopXNotes touch also works perfectly with Apple's recently released iOS 4 and TopXNotes touch even supports the new iOS 4 style spell checking. When combined with just released TopXNotes for Mac 1.6 customers can synchronize notes between one Mac and multiple devices running TopXNotes touch including iPhone, iPod touch and/or iPad.

Device Requirements:

- * iPhone and iPod touch
- * Requires iPhone OS 3.0 or later
- * 10.8 MB

Pricing and Availability:

TopXNotes touch 1.0 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Productivity category.
