

Universal Binary of Desktop Curtain optimized for Leopard

Published on 02/13/08

Many Tricks is proud to announce Desktop Curtain 1.0.1, the latest version of their great looking screenshot helper for Mac OS X. Desktop Curtain displays your favorite desktop picture just in front of your real desktop, so you won't have to clean up each time you need to take a screenshot. Version 1.0.1 has been upgraded to a universal binary, giving better support for Intel Macs. Furthermore Desktop Curtain has been adapted to Mac OS X 10.5's new default desktop picture.

IMMEDIATE RELEASE

Telfs, Tirol/Austria - February 15, 2008 - Many Tricks is proud to announce Desktop Curtain 1.0.1, the latest version of their great looking screenshot helper for Mac OS X. Desktop Curtain displays your favorite desktop picture just in front of your real desktop, so you won't have to clean up each time you need to take a screenshot. And it's really easy to control; just control- or right-click on Desktop Curtain's desktop picture to access its settings or quit.

Version 1.0.1 has been upgraded to a universal binary, giving better support for Intel Macs. Furthermore Desktop Curtain has been adapted to Mac OS X 10.5's new default desktop picture.

Example Features:

- * Your favorite desktop picture just in front of your real desktop
- * Really easy to control

Minimum Requirements:

- * Mac OS X Version 10.4 Tiger or higher
- * Universal Binary for PowerPC and Intel
- * 37KB Hard Drive space

Desktop Curtain can be downloaded from the official Many Tricks homepage. Desktop Curtain is donation ware, so please consider making a donation if you like Desktop Curtain.
