

## **Searchware Solutions announces Print Window 4.0 for Mac OS X**

Published on 02/20/08

Searchware Solutions is proud to announce Print Window 4.0, the latest version of their window printing utility for Mac OS X. Seamlessly integrated with the Mac OS X Finder, Print Window is a simple yet powerful tool to print file/directory listings of the currently selected window or folder, giving users complete control over the way file listings work, what folders are listed and the final printed format. Version 4.0 is a major new release that adds a host of new options and improvements.

### **IMMEDIATE RELEASE**

Papillion, Nebraska - February 19, 2008 - Searchware Solutions is proud to announce Print Window 4.0, the latest version of their highly acclaimed window printing utility for Mac OS X. Print Window is a simple yet powerful tool to generate and print file/directory listings of the currently selected Finder window or folder, giving users complete control over the way file listings work, what folders are listed and the final printed format.

Print Window works seamlessly with the Mac OS X Finder. Create and print a file listing directly from the Finder using several different methods, including a contextual menu item, the Dock menu or using a keyboard shortcut. Users have complete control over what files and folders are printed and how those file listings appear.

Version 4.0 is a major new release that adds a host of new options and improvements:

- \* The ability to save file listings as tab-delimited text files or Microsoft Excel files
- \* The ability to print a listing of thumbnails of a folder of pictures
- \* A Finder Contextual Menu plugin
- \* Unlimited icon sizes; Version 4.0 allows any size between 16x16 and 128x128
- \* A rebuilt print engine that is faster and much more flexible
- \* Users can now select a page range to print

Print Window 4.0 is available in two versions: Standard and Advanced. Both versions are available from within the same application. When first installed and launched, Print Window will operate in Advanced mode for 30 days. After 30 days, Print Window will revert to Standard mode until the user purchases a license.

Print Window Advanced allows users to create CD jewel case and DVD case covers from file listings, as well as save them as tab-delimited text and Microsoft Excel files.

### **Minimum Requirements:**

- \* Mac OS X Version 10.3.9 or higher
- \* Full Tiger and Leopard compatibility
- \* Universal Binary for PowerPC and Intel

### **Pricing and Availability:**

Print Window Standard Edition is free for unlimited use, and is a recommended update for all customers. Print Window Advanced Edition is \$20 USD per user. Volume licensing is available: \$130 for a 10 user/single-site license (a 35% savings) and \$1000 for an Unlimited Worldwide License. Users who purchased a license to Print Window 3 Advanced Edition will automatically receive a complimentary upgrade license to Print Window 4 Advanced Edition.
