

Freeridecoding updates SmartBackup to v2.2.2

Published on 03/10/08

Freeridecoding updates SmartBackup to Version 2.2.2. SmartBackup is the ideal application to perform all kinds of daily backups to harddrives, network sharepoints, webDAV, usb sticks, iPods etc. Be smart - backup different. From a smart efficient document backup to a full bootable backup of MacOSX - SmartBackup is very easy to set up and straightforward. Version 2.2.2 adds French localization and other improvements.

Vienna, Austria - Freeridecoding updates SmartBackup to Version 2.2.2. SmartBackup is the ideal application to perform all kinds of daily backups to harddrives, network sharepoints, webDAV, usb sticks, iPods etc. From a smart efficient document backup to a full bootable backup of MacOSX - SmartBackup is very easy to set up and straightforward.

The tool supports the use of Spotlights "saved searches" as backup items or to define exclusion which makes creating dynamic backups (all protected iTunes files, all documents changed this week, etc) very simple. SmartBackup optionally archives deleted or changed items during each backup and keeps them sorted in an archive folder.

SmartBackup supports handling of multiple backup sets and can be automated using iCal, Automator or for the unix pros using the commandline mode and shellscripts.

New in 2.2.2:

- * French localization
- * Improved SMB support for Leopard
- * Bugfixes

Features:

- * Straightforward interface
- * Backup presets
- * Backup/exclude saved searches
- * Archiving of changed/deleted files
- * Bootable backups
- * Easy handling of multiple backup sets
- * Powerful built-in sync engine
- * Preserves important metadata
- * Optimized for network backup
- * Schedulable with iCal or Automator
- * Commandline mode
- * Built in restore

Localization:

English, German and French

System Requirements:

- * Native on Intel or PPC Macs: Universal Binary
- * Requires MacOSX 10.4 or later.

Pricing and Availability:

Single 15 Euro (appr. 22USD), Family Pack 30 Euro (appr. 44USD). Site licenses available. Press licenses for evaluation are available upon request.
