Kaunas, Lithuania - iWeb Themes Park, the leading developer of modern and astonishing web design solutions, today unveils five new iWeb Themes for Apple's iWeb. New features and possibilities for touch screen devices are opened for Photo Lab, Picture Frame, Strategic, Sunny Clouds and Wood Wall Themes. Building websites with these iWeb themes takes browsing to the higher level of possibilities, where touch screen devices increase their market share rapidly.

These themes are made specially for building websites, which look gorgeous on every traditional computer, iPad or any other touch screen device. What's more, navigation in such a website leaves unforgettable browsing experiences, when you tap on it with a finger. High quality large icons let the visitors of the website experience full browsing pleasure with their iPads or any other touch screen devices.

Starting from today everyone can make a website which is high quality, modern, well designed and tuned for browsing with iPad or any other touch screen device. Adjustments for touch screen devices positively affected the design for traditional browsing with the mouse. Each element or navigation bar became larger, more customizable and higher quality. From now every iWeb user can share their website with millions of users who enjoy browsing with touch screen devices.

Five new iWeb Themes in details:

- \* "Picture Frame" theme has a great variety of photo frames that can improve your art gallery, which you would like to share with your friends or even sell some art works
- \* "Strategic" theme is formal, precise, containing regular elements for building a solid business website
- \* "Wood Wall" theme has amazing quality 3D icons, which leave an unforgettable impression of your "wooden" website
- \* "Sunny Clouds" theme has business related elements and icons. It is perfect for representing a business website.
- \* "Photo Lab" theme is perfect for photography enthusiasts and for people who like sharing their photos
