

Candywriter announces Imagine Poker 3.2 for Mac OS X

Published on 03/17/08

Candywriter wishes Mac users a happy St. Patrick's Day with the release of Imagine Poker 3.2, an offline Texas Hold 'Em Poker game. Imagine Poker allows players to pit their wits against 21 infamous characters from history, mythology, and legend, including Cleopatra, Robin Hood, Abraham Lincoln, Dracula, Napoleon, the Grim Reaper, and many more. The game features fully animated opponents and an adaptive artificial intelligence engine.

Seattle, WA - Candywriter wishes Mac users a happy St. Patrick's Day with the release of Imagine Poker 3.2, an offline Texas Hold 'Em Poker game.

Imagine Poker allows players to pit their wits against 21 infamous characters from history, mythology, and legend, including Cleopatra, Robin Hood, Abraham Lincoln, Dracula, Napoleon, the Grim Reaper, and many more. The game features fully animated opponents and an adaptive artificial intelligence engine.

Version 3.2 welcomes Sherlock Holmes to the game and includes the option to use one of the available 21 characters as an "avatar" at the table. What legendary figure best represents you?

Embedded within Imagine Poker is Candywriter's Poker Ghost software that provides detailed mathematical analysis of a poker hand at any given time.

"This game truly has something for everyone, and can be appreciated by players at any level." - MacPokerTools.com

Minimum Requirements:

- * Mac OS X Version 10.3.9 or higher
- * Universal Binary for PowerPC and Intel
- * 54.9 MB of Hard Drive space

Pricing and Availability:

A fully functional free trial of Imagine Poker is available for download. The full version of the software can be unlocked for \$19.95
