

TOM BIHN Introduces Cache Sleeve for 11" Apple MacBook Air

Published on 10/20/10

Seattle based TOM BIHN today announced a new size of their Cache sleeve designed specifically for the 11" Apple MacBook Air. The Cache protects the Apple MacBook Air against scrapes and scratches from all sides. Its 6mm thick foam padding laminated with an exterior of four-ply Taslan and an interior of brushed tricot cradles the MacBook Air. The Cache protects your laptop with little bulk added and is ideal for those who don't want their laptop case to take up a lot of space.

Seattle, Washington - TOM BIHN, a designer, manufacturer, and retailer of laptop and travel bags has introduced for pre-order the Size Air11 Horizontal Cache sleeve, sized specifically for the new Apple 11" MacBook Air.

The Cache is designed to protect the Apple MacBook Air against scrapes and scratches from all sides. Its 1/4" (6mm) thick foam padding laminated with an exterior of four-ply Taslan and an interior of brushed tricot cradles the MacBook Air. With no noisy Velcro(R) or zipper, the Cache closes by simply tucking a generous flap into the top opening. The Cache protects your laptop with little bulk added and is ideal for those who don't want their laptop case to make their loads heavier or take up a lot of space.

The Cache sleeve can be used on its own or slipped inside of the TOM BIHN Co-Pilot travel bag, Large Cafe Bag, Imago messenger bag, or any other larger TOM BIHN messenger bags, briefcases, or backpacks. One may also use the Cache inside of their current messenger bag, briefcase, or backpack.

The Cache is available for pre-order in Black and ships by early November. \$30 (USD). Made in Seattle. Lifetime Guarantee. The Cache is also available in Size Air13 for the 13" Apple MacBook Air. Size Air13 fits all models of 13" Apple MacBook Air and ships within one business day. The Cache is available exclusively through the TOM BIHN website or Seattle Factory Showroom.
