

JNSoftware Releases Dialectic, A Versatile Telephony Tool for Mac

Published on 04/07/08

JNSoftware is proud to announce the release of Dialectic, a versatile telephony tool for Macintosh. Dialectic provides system-wide dialing of phone numbers using Bluetooth mobile phones, landlines, many VoIP services and more. It integrates with leading contact management applications including Marketcircle Daylite, Microsoft Entourage, Now Contact, Palm Desktop, FileMaker Pro and other databases as well as Apple's iCal and Address Book.

New York, NY - JNSoftware is proud to announce the release of Dialectic, a versatile telephony tool for Macintosh. Dialectic provides system-wide dialing of phone numbers using Bluetooth mobile phones, landlines, many VoIP services and more. It integrates with leading contact management applications including Marketcircle Daylite, Microsoft Entourage, Now Contact, Palm Desktop, FileMaker Pro & other databases as well as Apple's iCal and Address Book.

In addition to dialing, Dialectic provides a global Address Book menu for quickly accessing - and acting on - all your contact data including email, instant messaging, postal addresses, URLs, notes, and phone numbers. Intuitively create new email messages, look up addresses on a map, copy data to the clipboard or insert it into your current document. It's fast and useful as well as fun and easy.

Key features:

- * Mac OS 10.4 & 10.5 Leopard Compatibility
- * Universal Binary
- * AppleScript Automation and Extensibility

* Quick & Easy Integration With:

- Address Book
- Marketcircle Daylite
- Microsoft Entourage
- Now Contact
- Palm Desktop
- FileMaker Pro & Other Databases
- Launchers such as Butler, LaunchBar, and Quicksilver
- * System-Wide Dialing via Contextual Menu or Services Menu
- * Voice Activated Dialing
- * Incoming Call Detection and Auto Redial on Busy
- * Call Timer, Log, Notepad, and While You Were Out Notes
- * System-Wide Quick Dial Numbers (Speed Dial)

* Supports Dialing With:

- Bluetooth mobile phones
- Landlines
- Asterisk
- BroadVoice
- CallVantage
- Cisco IP Phones
- FRITZ!Box
- Ovolab Phlink
- Parliant PhoneValet
- Speakeasy.net
- ViaTalk
- Vonage
- VoIP Softphones: CounterPath softphones, Gizmo, iSoftPhone, JackenIAX, LoudHush,
