

## Mindwarm Incorporated releases AddTo NYC 1.0 for iOS

Published on 11/11/10

Oregon based Mindwarm Incorporated today released AddTo NYC 1.0 for iPhone, iPad and iPod touch. AddTo NYC shows you New York City and lets you create your own travel guide from your photos and notes. Easily create your own map with the highlights you want, photo album and travel diary. At any time you can add a note or photo to your album. If you have allowed location, then your current location will be added to that note and photo. Send your notes, photos and maps to your friends.

Beaverton, Oregon - Mindwarm Incorporated today is pleased to announce the release of AddTo NYC 1.0 for iPhone, iPad and iPod touch. AddTo NYC shows you New York City and lets you create your own travel guide from your photos and notes. Create your own map with the highlights you want. AddTo NYC shows you favorite New York City locations like Times Square and new places like the High Line Park. AddTo NYC lets you create your own map, photo album and travel diary.

What is the ultimate travel guide? It is the travel guide that you write from your own experiences. See your photos and read your notes from the great places you have visited. Build your own map and album. Export your creations via email. Send your notes, photos and maps to your friends. Explore, create and share! At any time you can add a note or photo to your album. If you have allowed location, then your current location will be added to that note and photo.

If the location is known, then the default behavior is to add your note or photo to your map (My Map). You can remove any note or photo from the map by pressing the minus button in the lower left corner. You can add any note or photo to the map by pressing the plus button in the lower left corner. Use the News Feed feature to keep up with AddTo news, including the latest releases of AddTo applications.
