

Cynical Peak Software releases Rivet 1.0

Published on 04/16/08

Cynical Peak Software is pleased to announce the release of Rivet 1.0. Rivet enables users to stream video, music, and photos from Mac OS X to an Xbox 360 over your home network. You can now easily enjoy all of your media on your big screen TV from the comfort of your living room.

Scottsdale, Arizona - Cynical Peak Software is pleased to announce the release of Rivet 1.0, their application for streaming video, music, and photos from Mac OS X to an Xbox 360. Rivet is an easy to use and fun way to play all of your favorite media content from your Mac on your TV using your Xbox 360, including movies, TV shows, music, photos, and podcasts. You can now easily enjoy all of your media on your big screen TV from the comfort of your living room.

Rivet enables everyone to quickly browse and view their entire collection of digital media from from anywhere in the house on their Xbox 360. Your Mac's folder structure and organization is completely reproduced to allow you to quickly find exactly what you want to view. Navigation is now a breeze. You no longer have to search through a long list to find what you want. Dig in and start watching right away.

Feature Highlights:

- * Music streaming of your iTunes library.
- * Photo streaming of your iPhoto library and user defined folders.
- * Video streaming from user defines folders.
- * Full organization support, your mac is recreated on the Xbox 360.
- * Quick automatic updating on the Xbox 360 when files are added, deleted, or moved.

System Requirements:

- * Requires Mac OS X v10.5 or later.
- * iTunes for music sharing
- * A networked Xbox 360
- * 2.7 MB Hard Drive space.

Pricing and Availability:

Rivet 1.0 may be purchased for \$18.95 USD and comes with a limited streaming demonstration period.
