

iLiveGrammar Winter: A new cross-curricular Science and Grammar iPad app

Published on 01/18/11

California based iHomeEducator released iLiveGrammar Winter 4.0 for iOS on January 14, 2011. Developed specifically for 1st-4th grade, early readers are introduced to winter earth science as well as basic grammar such as nouns, verbs, adjectives, adverbs, prepositions and conjunctions. Related science and grammar videos are linked in as an incentive for the students. The sentence and answers are tracked for record keeping and can be emailed and blogged.

Sacramento, California - On January 14, 2011, iHomeEducator released iLiveGrammar Winter 4.0 - an educational grammar and science app which includes a large collection of stunning winter photography images.

Arlene Lee, home educator and Chief Mom explains, "We recently took the kids to play in the snow - a first for our family and they absolutely loved it! As we drove up to the mountains, they were fascinated to see the snow-laden trees and the change in scenery. As we study grammar and science, our daily lives become teaching opportunities for children and an inspiration for this new app."

The four lessons include:

Lesson 1: Nouns and Verbs

Lesson 2: Adjectives and Adverbs

Lesson 3: Prepositions, Conjunctions, and Nouns

Lesson 4: Review

iLiveGrammar randomly displays a sentence with a word highlighted.

* Sentences are associated with pictures where a specific word or words are highlighted.

* Pick from the scrolling picker: noun, verb, adjective, adverb, preposition, etc. which is associated to the highlighted word(s).

* The sentence and answers are tracked for record keeping and can be emailed and blogged.

* Reports have been enhanced to highlight the word(s) in yellow, the Correct Answer is highlighted in green and the Incorrect Answer is highlighted in red.

* Related science and grammar videos are linked in as an incentive for the students

Using the Apple iPad Dock Connector to VGA Adapter the teacher can control the app as well as display the sentence and photograph on an external projector. The Apple iPad Dock Connector to VGA Adapter is supported by the iPad, iPhone 4, and iPod touch (4th generation). All iLiveGrammar apps ported to 4.0 will support this new adapter.

Device Requirements:

* iPad, iPhone and iPod touch

* Universal App design and layout

* Requires iPhone OS 3.1.2 or later

* Compiled and tested on iOS4

Pricing and Availability:

iLiveGrammar is offered at the list price of \$4.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Education category.

iHomeEducator was founded in 2009 by a credentialed California State Board of Education mother and family actively home educating three children through a Charter School. Through this personal journey we are building apps for ourselves and educators around the world. We hope to help children master mathematical concepts combined with engaging social studies, science, history, and literature themes. Copyright (C) 2009-2011 iHomeEducator. All Rights Reserved.
