

Objective Decision releases Contactizer 3.6

Published on 05/30/08

Objective Decision LLC has released v3.6 of Contactizer, its popular Personal Information Management application. Contactizer 3.6 is a free update that includes major new features to manage your professional life. Contactizer 3.6 sports a Cover Flow mode (Leopard Only feature) that shows your contacts in a business card like presentation, a Task Quick Entry Panel, a new multi-calendar sync system and many user interface enhancements expanding your productivity.

Miami, Florida - Objective Decision LLC has released v3.6 of Contactizer, its popular Personal Information Management application. Contactizer 3.6 includes a dozen new features and enhancements, and now fully Leopard compliant.

Contactizer 3.6 sports a Cover Flow mode (Leopard Only feature) that shows your contacts in a business card like presentation, a Task Quick Entry Panel (even works when Contactizer is not running), a new multi-calendar sync system and many user interface enhancements expanding your productivity.

Contactizer 3.6 is fully compatible with Mac OS X Tiger and Mac OS X Leopard and it is distributed as a Universal Binary and runs natively on both PowerPC and Intel Macs.

Pricing and Availability:

This update is free to all registered 3.x users. Contactizer Express or Pro 3.6 can be tested for free by downloading the 30 days demo version. Contactizer Pro retails for EUR 99 or \$119 USD and Express release for EUR 49 or \$54.90 USD; quantity discounts and educational pricing are available. For more information, please contact the Objective Decision sales team.
