

## **The Fourth Annual Father's Day Sale from XtraLean Software: Save 50%**

Published on 06/11/08

XtraLean Software is pleased to announce its fourth annual Father's Day Sale, offering Dads a chance to treat themselves to two products for one low price. From June 11 to June 15, users can get ShutterBug for only \$29.95 CAD (reg. \$39.95). When users purchase ShutterBug at the special Dad's price, they will also receive a free copy of ImageWell (reg. \$19.95) for a grand total savings of \$30 off the regular combined price of \$59.90 CAD.

Kitchener, ON, Canada - XtraLean Software is pleased to announce its fourth annual Father's Day Sale, offering Dads a chance to treat themselves to two products and save 50%. From June 11 to June 15, users can get ShutterBug for only \$29.95 CAD (reg. \$39.95). When users purchase ShutterBug at the special price, they will also receive a free copy of ImageWell (reg. \$19.95).

Both products come with many fresh enhancements and can be tried for free, and purchased at the special bundle price of only \$29.95 CAD, giving users a total savings of \$30. A discount code is required to purchase at the special price, which users can get from participating blogs. Offer details are available from XtraLean's website.

To continue the tradition, XtraLean has invited a group of Mac-related websites to join in the Father's Day fun again this year. Users can get a discount code from any one of the participating sites listed on XtraLean's home page. Participating sites will receive \$10 for each sale that is generated from their site.

ShutterBug is an easy to use website creation tool for Mac OS X that helps users create and publish stylish websites easily, quickly, and custom built to one's specific and personalized needs. ImageWell is a lean, yet powerful image editor for Mac OS X that lets users quickly and easily edit, crop, resize, and send pictures and files to anyone, anywhere with one simple click of a button.

The latest version offers even more handy features such as batch resizing, batch watermarking, and much more. Now until June 15th, users can get both applications bundled up at a special Father's Day price for only \$29.95 CAD, which normally retails for a combined price of \$59.90 CAD.

ShutterBug and ImageWell require Mac OS X 10.3.9 or better and are Universal Binaries for both Intel-based Mac and Power PC support. Both products support .Mac accounts, WebDAV hosts, FTP/SFTP, and Export to a Folder. In addition to these, ImageWell also supports SmugMug, Flickr, and ImageShack accounts.

A full-featured demo version of ShutterBug can be tried for free. ShutterBug regularly retails for \$39.95 CAD, but for a limited time only, it is available for \$29.95 CAD and includes a free copy of ImageWell (reg. price \$19.95 CAD).
