

Yazsoft announces new Speed Download Lite and major 3G iPhone Giveaway

Published on 06/12/08

Yazsoft is proud to announce the immediate availability of Speed Download Lite 1.0.0. Overhauled from top to bottom, Speed Download Lite is a stripped down version of the Speed Download 5 download manager - without any of the extra features. With regards to the interface and browser integration, Speed Download Lite offer the same top of the line performance and reliability that you'd expect from a download manager. In addition, you have a chance to win one of three Apple 3G iPhones.

Chicago, Illinois - Yazsoft is proud to announce the immediate availability of Speed Download 1.0.0. Developed exclusively for Mac OS X, Speed Download is an easy to use, powerful and reliable download manager.

Speed Download sets a higher standard for download manager innovation, and is expressly designed to be a central, unified hub for almost all downloading and file transfer activities.

Some Key New Features in Speed Download Lite:

- * New: Completely redesigned and fully customizable interface;
- * New: turbo-charged downloads and auto-resuming at all times;
- * New: iTunes-like Minimized mode with user controlled color picker;
- * New: Filters bar;
- * New: 'Live' bandwidth throttle;
- * New: individual file scheduling;
- * New: queue downloading scheduling;
- * New: Speed Download dock menu notifications;
- * Enhanced: built-in Smart Folder technology;
- * Enhanced: Download website content for offline viewing;
- * Tons of tweaks and performance oriented changes;
- * And much more!
