

BackJack Online Backup for Macintosh Unveils 4 GB Free Account

Published on 02/17/11

Ontario based Synectics Business Solutions, Inc. today announced the availability of a 4 GB Free Account to complement its well-established business service. Users will benefit from a full-featured version of the BackJack software along with access to the company's unparalleled support. It's a risk-free way of allowing users to experience the convenience of BackJack as a high-end service. Additional Macs or storage can be easily added by subscribing to the full service.

Markdale, ON, Canada - Synectics Business Solutions, Inc., developer and provider of the BackJack(TM) Online Backup Service for Macintosh, today announced the availability of a 4 GB Free Account to complement its well-established business service.

4 GB Free Account

The introduction of BackJack's free version means that all Mac users can now enjoy 4 GB of file protection completely free of charge. It's a risk-free way of allowing users to experience the convenience of BackJack as a high-end service. Users will benefit from a full-featured version of the BackJack software along with access to the company's unparalleled support. Additional Macs or storage can be easily added by subscribing to the full service where pricing starts as low as USD \$8 per month for 20 GB of protection.

The company has long been recognized for its personal client care, quality software, solid security and ongoing focus on Mac-only solutions. "For the past 13 years, we have catered exclusively to the Mac online backup market", states President Chris Brown. "As a result, we offer tremendous advantages for our clients including mature software, unmatched experience with the technology and a solid business practice where business clients know that BackJack will exceed their expectations. We have earned the trust of the Mac business community through years of service and are proud that our longevity and Mac-centric solution continue to set us apart", states Brown. The company remains committed to the storage needs of Mac business and enterprise users where the highest standards for backup and recovery must be set and met.

Getting Started:

To get started with a free 4 GB account, visit BackJack now. Mac users need 10.4.10 or greater.
