

Publi-Script launches its Desktop Publishing Forums

Published on 03/26/07

Desktop publishers worldwide will now have a one-stop destination where they can share their experiences with their fellow prepress artists.

FOR IMMEDIATE RELEASE

Desktop publishers worldwide will now have a one-stop destination where they can share their experiences with their fellow prepress artists.

Benefit from the expertise of other or come to share yours. These forums currently host topics on Quark XPress, Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Applescripting and more.

Publi-Script Forums:
<http://forums.publi-script.com>

Publi-Script is a privately own company dedicated to optimizing your publishing workflows thru scripting. We offer turn key solutions, in-house production, training and consultation.
