

## **Sp@mX Retires**

Published on 07/05/08

Hendrickson Software Components announced today that Sp@mX, its best selling spam tracing and reporting utility, has been retired and replaced by Purify. After many years of faithful service, the venerable Sp@mX has been officially retired, and its servers taken off-line. Purify was designed from the ground up with ease of use, and simplicity in mind.

Arlington, Virginia - Hendrickson Software Components (hsc) announced today that Sp@mX, its best selling spam tracing and reporting utility, has been retired and replaced by Purify. After many years of faithful service, the venerable Sp@mX has been officially retired, and its servers taken off-line. Sp@mX has been replaced by Purify.

When email counts, count on Purify. Filter email, forward validated email, trace and report spam. Simple to set up. Very powerful antispam features. Purify was designed from the ground up with ease of use, and simplicity in mind. Use it stand alone, or it was also designed to scale, so that it will be able to easily support a workgroup from a central computer. Take a look!

Purify's filtering features are also be integrated with the hsc email archiving product, a very powerful information manager, called "Compass."

### Pricing and Availability:

Purify upgrade is priced at \$19.95 USD, and can be purchased from the company's web site using the upgrade link. Purify is priced at \$29.95 USD, and can be purchased from the company's web site. Existing Sp@mX customers may upgrade to Purify using the special upgrade link that they received via email last week.
