The most popular computer card games, Solitaire, Freecell and Spider, are brought together in the AcidSolitaire Collection. With easy touch screen play, and incredible attention to detail, the AcidSolitaire Collection is a fundamental necessity for all iPhone and iPod touch owners.

Glenview, Illinois - Red Mercury, LLC, a developer and publisher of fun and snappy iPhone games, today announced that AcidSolitaire(r) Collection is now available for sale on the App Store.

The most popular computer card games, Solitaire, Freecell and Spider, are brought together in the AcidSolitaire Collection. With easy touch screen play, and incredible attention to detail, the AcidSolitaire Collection is a fundamental necessity for all iPhone and iPod touch owners.

AcidSolitaire Collection delivers the excellence you expect from iPhone and iPod touch games. Relax with polished game play and snappy graphics. Easy-to-read cards make it fun in either portrait or landscape mode. Select images from the Photos app to create your own game backgrounds, and queue up some music from your iTunes library to enjoy while you play.

Smart Sparkle Hints(r) and the helpful Card Finder make AcidSolitaire play like no other card game. AcidSolitaire Collection makes it fun for everyone, from beginners to the most advanced solitaire enthusiast. Try to win every game!

AcidSolitaire Collection for iPhone and iPod touch includes:

- * Quick and simple single-touch play with Intellimove(r)
- * Easy stop and go. Games are always automatically saved
- * Listen to your iTunes music while you play
- * Super Battery Saver extends battery life
- * Complete move memory. Undo/Redo your last move or every move
- * Use your own Photos as game backgrounds
- * Includes AcidSolitaire, AcidFreecell, and AcidSpider
- * Various game style options and select game by number
- * Entertaining statistics and fireworks make it a thrill to win!

"A product as stunning and exciting as the iPhone only deserves the best, most elegant software. We put a lot of effort into the AcidSolitaire Collection to make it a game that is fun to play every day, and it's also a great way to show off your iPhone," said Scott Corley, President and Founder of Red Mercury. "I play it every day."

Pricing and Availability:

AcidSolitaire Collection is available now for \$9.99 USD. The game can be purchased and installed directly from the App Store on the iPhone and iPod touch. The game is also available for purchase via iTunes. For more information, visit Red Mercury.
