

Analog diary feelings comes into My Wonderful Days by haha interactive

Published on 05/25/11

Haha Interactive today announces My Wonderful Days 1.2, an update to their productivity app for iOS devices. My Wonderful Days can be used as a diary, or a simple notepad. Its main feature is one-note-a-day with a feeling inside. Statistics about written notes are shown as the weather outside a window; making a shiny sunny day for good feelings and rainy days for bad feelings. Version 1.2 adds aging to notes as they get older over time, as well as a much more powerful search feature.

Seoul, Republic Of Korea - Haha interactive has brought a huge update for their recent app, My Wonderful Days. My Wonderful Days is an app that can be used as a diary, or a simple note. Main feature is one-note-a-day with a feeling inside. Statistics about the notes written is shown as a weather outside the window, which makes a shiny sunny day for good feelings and rainy days for bad feelings.

The new update has many interesting features. Most impressing one is that paper gets old as the user takes a look more and more just like the analog notes. Moreover many additional faces is included. Search feature is included with dynamic text finder and many options to organize the past notes by happiness, most viewed and etc. Favorite notes can be set by putting on a star on a face.

Many many users has been impressed by the app, and actually using it everyday. Over 680 reviews were written with average 4.5/5.0 stars.
