

## **ReaddleDocs - Business Document Management Solution for iPhone released**

Published on 08/21/08

Readdle announces the release of ReaddleDocs, a complete document and file management solution for the iPhone and iPod Touch. With ReaddleDocs anyone can transfer files from Windows, Mac or Linux computer to the iPhone and iPod Touch devices, view them on the go, send by email and more.

Odessa, Ukraine - Readdle announces the release of ReaddleDocs, a complete document and file management solution for the iPhone and iPod Touch. With ReaddleDocs anyone can transfer files from Windows, Mac or Linux computer to the iPhone and iPod Touch devices, view them on the go, send by email and more.

ReaddleDocs operates through Readdle Storage, the 512MB free online file storage. This allows to support many important business functions e.g. working with emails and transferring files to iPhone without WI-FI, using EDGE or 3G. Business people can save attachments they got in the Mail or send files stored in ReaddleDocs to their colleagues and partners.

ReaddleDocs built-in viewer supports PDF and Microsoft Office files made with Word (doc, docx), Excel (xls, xlsx) and PowerPoint (ppt, pptx). To read documents created using software like MS Project, MS Visio or OmniGraffle people could simply print them as PDF files and copy to ReaddleDocs.

For individuals who use their devices to read books ReaddleDocs offers variety of book formats. TXT, FB2, RTF and HTML files are supported in addition to PDF and .doc documents. Also, application supports quick scrolling through document allowing to easily navigate in large files and ability to bookmark at any place in the document.

Another ReaddleDocs remarkable feature is a built-in web browser. It's intended for helping users, to save documents found on the Web, to their device.

Pricing and Availability:  
ReaddleDocs is available for \$14.99 USD at App Store.
