

## ThinkMac Software announces iKana touch 1.0

Published on 08/26/08

ThinkMac Software has announced iKana touch, a new application for learning Japanese hiragana and katakana on your iPhone or iPod Touch. iKana touch features flash cards with stroke animations, spoken sound clips and example words. It offers a speed recognition test and a writing test to aide memorisation.

Aberystwyth, United Kingdom - ThinkMac Software has announced iKana touch 1.0 for the iPhone and iPod Touch. iKana is an application for learning the Japanese phonetic scripts: hiragana and katakana. iKana touch features flash cards with stroke animations, spoken sound clips and example words.

iKana touch offers a speed recognition test and a writing test to aide memorisation. In the speed test you have to correctly identify a character before the time runs out. In the writing test you have to correctly trace each stroke in a character.

### Pricing and Availability:

iKana touch is available for download and purchase in the App Store and iTunes. It is p  
also sells iKana for Mac OS X.
