

InfoLogic celebrates its 10th anniversary of MathMagic

Published on 08/27/08

InfoLogic is delighted to celebrate their 10th anniversary of MathMagic. First introduced as a Quark XTension at the 1998 Seybold Expo in San Francisco, the award-winning MathMagic

Series has expanded into a product line that continues to embrace its heritage of unsurpassed equation quality. The folks at InfoLogic wish to take this opportunity to thank customers for their interest and support with a very special offer to celebrate their 10 years of MathMagic.

Vancouver, Canada - InfoLogic is delighted to celebrate their 10th anniversary of MathMagic. First introduced as a Quark XTension at the 1998 San Francisco Seybold Expo, the award-winning MathMagic Series has expanded its product line into the MathMagic Personal Edition, Pro Editions for InDesign and QuarkXPress, and the customizable Prime Edition. Every solution continues to embrace the same heritage of unsurpassed equation quality.

To celebrate 10 years of MathMagic, the hard-working folks at InfoLogic wish to take this opportunity to thank both new and old customers alike for their interest and support with a very special offer:

*** MathMagic's Debut Announcement:**

For customers who purchased MathMagic during its debut year, InfoLogic is offering \$1000 worth of products for free. Customers must have purchased MathMagic between September 1, and December 31, 1998. Please contact sales 778-880-0605 or visit them online by 9/30/08 to take advantage of this offer.

*** Back to School Special - 40% discount:**

Between August 27 and September 3, 2008 InfoLogic will be offering a 40% Discount for any items sold from their online store. Shop any items, and simply enter the coupon code; MM10YEAR.

This offer is for end user, and online purchasing only.

The superior quality and productivity of MathMagic is accepted by many professors, teachers, students, university presses, school text book publishers, and government research institutes in more than 75 countries around the world.
