Ottapalam, India - Devalipi Software, are pleased to announce the immediate availability of the new update of Imposition Studio with the well awaited feature of full layout preview and complete creep settings. The most economical Professional Imposition Software for Digital Print Houses and Offset Printing Presses. Imposition Studio creates output ready print layouts for Digital Printers, Image Setters and CTP systems.

Imposition Studio creates the final output files in Adobe PDF format from single or multipage PDF files using the included layout templates or user created custom layouts with any number of pages, signature styles, binding method, printing styles etc.

Imposition studio supports all Digital Laser printers, Film Image setters and CTP machines.

### Features:

- \* Live signature preview on PC and Mac
- \* Any number of pages in a signature
- \* Fully customizable layout editor
- \* No third party applications required
- \* Multiple PDF file input
- \* Re-usable templates
- \* Hot folder dropable PDF format output
- \* Automatic creep control with cross-over page support
- \* Image / Color Preflight
- \* Customizable crop marks
- \* Automatic & manual pagination
- \* Perfect binding, saddle stitching and step & repeat
- \* CTP signature alignment on plates
- \* Perfecting CTP support
- \* Auto page overlap removal
- \* Right to left (Arabic) layout support
- \* Supports page cloning for mini/micro booklets
- \* Seamless support for Windows & MacOSX
- \* Free use of first 2 signatures
- \* Free use of all 2 up signatures
- \* Free Combine PDF
- \* FREE Booklet maker

### How it Works:

- \* You are only required a single or multi page PDF file containing all the pages of the book/magazine or brochure
- \* Select the suitable layout template from template window
- \* Select the PDF file(s) as source links
- \* Setup output style as per your output device specification
- \* Click the 'PDF Output' button to create the Final Impositioned Adobe PDF file
- \* Then you can use the resulted PDF file to print directly to a Digital Laser Printer or

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

drop into drop folders of your Film image setter or CTP workflow

If you are familiar with the terms of prepress & printing like bleed, crop marks, binding, page numbering, pagination etc, then you need only one hour to master in Imposition Studio.

You can try before you buy. Imposition Studio demo is fully functional but some restrictions applied on the length of the pages or watermark overlay on the output. No registration number is needed, It will ask for registration while creating PDF output. Click the demo button to export. The demo lasts for 30 days. During the evaluation period you can create documents of any ups and all layouts.
