

## **Grantwood Technology Ships tuneband for iPhone 4 in Glow in the Dark**

Published on 07/06/11

Grantwood Technology, LLC today announces the Glow in the Dark color for tuneband for iPhone 4G, an armband product designed to comfortably secure the iPhone 4G in place during exercise, with the ability to access the screen and buttons. The tuneband armband is made with the same material as their highly acclaimed tuneband for iPhone. Each tuneband consists of a comfortable and flexible armband strap that can accommodate both large and small arms.

Middleburg Hts., Ohio - Grantwood Technology, LLC today is pleased to announce the release of the Glow in the Dark color skin for the tuneband(TM) for iPhone 4, an armband product designed to comfortably secure the iPhone 4 in place during exercise, with the ability to access the screen and buttons.

The tuneband for iPhone 4 is one of the most popular armbands sold, now we are making available five skin colors: black, pink, red, purple and now Glow in the Dark.

Each tuneband consists of a comfortable and flexible armband strap that can accommodate both large and small arms. We also have extra large armbands available upon request. The rest of the package includes a durable silicone skin that allows access to all ports on the iPhone 4, including volume, screen, camera and home button. It is compatible with both the AT&T version and Verizon version iPhone 4.

We also supply a low-tack, cut-and-peel screen protector that helps guard against smudges, moisture, and daily wear-and-tear. The tuneband armband is made with the same material as our highly acclaimed tuneband for iPhone 4.

"The tuneband for iPhone 4 is one of the most popular armbands available," explained Michael Banks, MD, co-founder and CEO of Grantwood Technology, LLC. "We have now added a special Glow in the Dark color for both fun and for those that want to see the skin in darkness."
