

## **iPresentee presents new Keynote Motion Themes**

Published on 09/16/08

iPresentee today has released Keynote Motion Themes 3.0 to be used with Apple's Keynote presentation software. iPresentee presents five new Keynote themes: Geography, Rings, Brush Stroke, Red Planet and Stock Market. Each Keynote Motion Theme includes from fifteen to twenty four master slide layouts and high quality moving background graphics. Keynote Motion Themes can stand alone to unify a presentation or can be mixed together with other non-motion themes to provide breakpoints.

Vilnius, Lithuania - iPresentee, the developer of add-ons for Apple's iWork and iLife applications, releases Keynote Motion Themes 3.0 to be used with Apple's Keynote presentation software. iPresentee presents five new Keynote themes: Geography, Rings, Brush Stroke, Red Planet and Stock Market. Each Keynote Motion Theme includes from fifteen to twenty four master slide layouts and high quality moving background graphics.

Keynote Motion Themes with moving background graphics contains everything to create modern and dynamic presentation to share ideas with any audience. Keynote Motion Themes can stand alone to unify a presentation or can be mixed together with other non-motion themes to provide breakpoints.

Creating a presentation using Keynote Motion Themes is exactly the same as creating a presentation using the usual themes - you can add, edit, and format text; add photos or movies; and use Keynote's transitions and special effects. New Keynote Motion Themes includes coordinated fonts, colors, moving background graphics, unique bullets and various design styles.

Keynote Motion Themes 3.0 includes an installer to make sure the themes end up in the right place and will be displayed in Keynote's themes menu automatically.
