

Tension Software releases DMG Master

Published on 04/16/07

DMG master builds images archive in a fast, simple and powerful way using a document based approach.

DMG Master is a software to create DMG image archive with a document based approach. The unique 'document based' approach lets the user save a lot of time versus the 'utility' approach. With DMG Master the user saves all settings in documents.

- * Sources can be anywhere on the Hard Disk
- * Uses drag and Drop to specify Sources and image destination
- * DMG Master can be useful for different purposes:
 - * Release software as software developers
 - * Make generic backup of your data
 - * Make backup for remote server archiving
 - * Store data on a ftp server
 - * Sending reserved data via the net
 - * Using GMail as a backup server
