Atlantic Beach, Florida - Tropical Software today is pleased to announce the release of 2Remember, now available in the Apple Mac app. store. 2Remember is an easy-to-use reminder app, offering a simple but powerful way to incorporate simple task management with reminders into your daily Mac life. 2Remember takes only a tiny space on your screen but has numerous options for reminders including flashing icon on dock, flashing tab red, alert and sound. 2Remember hides just offscreen as soon as any app opens, but unhides when the cursor is moved over tab.

When you see 2Remember you might be tempted to ask, "Why, with iCal Reminders and Tasks, and many, many other To-Do and task programs, why would I want 2Remember?"
