Garnet Games announces the release of Puzzle Moppet, a challenging 3D logic puzzle game for Mac OS X, which is now available on the Mac App Store at a discounted price. Puzzle Moppet is a cute yet devilishly challenging 3D platform puzzle game set in a mysterious floating landscape, with a beautiful and ethereal ambience and graphical style. The player's task is to guide the Moppet through 30 levels, and help the Moppet find its way to the portal at the end of each puzzle.

Cornwall, United Kingdom - Garnet Games announces the release of Puzzle Moppet, a challenging 3D logic puzzle game for Mac OS X, which is now available on the Mac App Store at a discounted price. Puzzle Moppet is a brain teasing 3D platform puzzle game set in a mysterious floating landscape, with a lonely ambience and an ethereal graphical style. The player's task is to guide the Moppet through 30 levels, and help the Moppet find its way past ice blocks, exploding blocks, balloons and elevators, and reach the portal at the end of each puzzle. The gameplay in Puzzle Moppet is designed to test player's brains with puzzles ranging from the fun and very easy to the devilishly devious that will require a deep spatial awareness to complete.

While Puzzle Moppet has been available for the Windows and Linux operating systems for some time, only now has the developer Garnet Games considered the game polished and perfected enough for the superior and enlightened Mac users.
