

Timor the Alligator for iOS will put a healthy smile on your kid's face

Published on 08/19/11

Toronto based XG Media has released Timor the Alligator - brushing his teeth for iOS, an app that will help put a healthy smile on any kid's face. Designed not only to entertain, but to educate, Timor the Alligator is a first of a series of interactive children's books. Timor enjoys playing all day and like any other good alligator, eats his broccoli for lunch. When it's time for bed, Timor picks up a toothbrush, applies toothpaste and brushes his teeth for a perfect alligator smile.

Toronto, Canada - XG Media has released "Timor the Alligator" - brushing his teeth, an app that will help put a healthy smile on your kid's face. Available for the iPad and Android Market. "Timor the Alligator" is a first of a series of Interactive children's books starring Timor, designed not only to entertain, but to educate using interactivity.

"We decided to focus on the problems that parents are facing with younger kids" says Avi Itzko, author and designer of the book. "Studies show that most parents struggle with the daily routine of getting their kids to brush their teeth mainly because children fail to understand the importance of this task and therefore uncooperative."

In this Book, Timor, a lovable alligator, enjoys playing all day and like any other good alligator, eats his broccoli for lunch. When it's time for bed, Timor picks up a toothbrush, applies toothpaste and brushes his teeth for a perfect alligator smile. Developed for the iPad, kids take part interacting with the storyline and helping Timor brush, which makes the reading experience unique and enjoyable. Perfect as a bedtime story.

Timor the Alligator supports languages for US English, Chinese, Czech, Dutch, French, German, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Swedish and Turkish.
