

He2 Apps releases Patch Catch 1.0 for iOS - New Photo Hunting Game

Published on 09/23/11

He2 Apps today introduces Patch Catch 1.0, its new photo hunting game for iPhone and iPod touch. Patch Catch is a classic interpretation of the "find the differences between pictures" genre with some twists such as combo points and game center leader boards. The object of the game is to find five differences between two pictures before the time runs out. One must be quick to get combo points, and show the world who is the master of photo hunting games.

Ankara, Turkey - He2 Apps today is pleased to announce its latest game, Patch Catch is available for iPhone and iPod touch. Patch Catch is a classic interpretation of the "find the differences between pictures" genre with some twists such as combo points and game center leader boards.

"We are a two-man studio, just me and my wife, trying to accomplish our childhood dream: quit job, be independent, make great games! We worked very hard to polish this game as much as we can, and I am very happy with the final result," says proud husband and co-founder of He2 Apps, Deniz Aydinoglu.

The object of the game is to find five differences between two pictures before the time runs out. The classic game returns with high-quality, hand-crafted pictures and game center leader boards. One must be quick to get combo points, and show the world who is the master of photo hunting games.
